

PLANNED PARENTHOOD PROVIDES less care, no matter what.

Despite “serving” nearly **one million fewer clients** in FY 2023 (2.05 million) than in FY 2013 (3 million), **Planned Parenthood** radically increased their annual forced taxpayer-funding from **\$541 million/year** to **\$700 million/year** in the past decade. Actual medical services for women have plummeted at the abortion giant for decades. But **abortions** have annually increased, and profits have **skyrocketed**.*
